### Indiana University (IUP) Veteran Entrepreneurship Certificate

IUP, in cooperation with Sandbox Industries, Inc., will be offering a new certificate program being Spring semester 2019 at Dixon University Center. The program is designed for veterans who are interest in starting their own business. Although the program is uniquely tailored to assist "vetrepreneurs", it is open to anyone who is interested in becoming an entrepreneur. If you are considering starting your own business, buying an established small business, taking over a family-owned business, or buying a franchise you can benefit from the education and experience we have built into this unique certificate program.

Unlike existing entrepreneurial development programs offering self-paced, independent learning in a vacuum where you print your own certificate upon completion, this certificate program is an immersive, in-depth, unique, hands-on developmental experience designed to assist participants through strategic learn-by-doing exercises. This 15-week program is based on traditional bricks-and-mortar classroom-based instruction delivered in a cohort where vetrepreneurs interact with each other to strengthen and challenge learning. The instruction is further enhanced

with field trips, guest presentations, mentoring, skill-building, and much more. From there, graduates compete for a spot with one of our accelerator program partners for another 10 weeks of advanced, hands-on business development where, upon completion, they are prepared to launch a successful and viable business.

IUP's brand-new entrepreneurial certificate program offers the following:

- Uniquely tailored for veterans, military personnel, and family members transitioning from active duty or retiring from a military career.
- Experienced faculty who understand the challenges facing the transitioning veteran as well as your unique strengths and skill-sets that contribute to your likelihood for success as an entrepreneur.
- Collaboration among key partners and

mentors to help you succeed beyond the classroom

- Hybrid learning model that incorporates classroom, virtual, and hands-on instruction and learning
- Participation is not limited to veterans, it is open to everyone serious about starting or running your own business.

If you or someone you know is serious about starting or running your own business, this program is an absolute must! Our experienced faculty, mentors, and partners will equip you to succeed through a rigorous instructional model of instructor-led and hands-on applications.

The program begins On January 22 and wraps up on May 8, 2019. Based on the instructional model we are using, the program is limited to no more than 30 participants per semester. Applications are currently being accepted so get your applications in soon. To learn more about the program and how you can participate, please contact Dr. Sherri Chippo at 717-919-2482 or via email at [sherriz@iup.edu](mailto:sherriz@iup.edu).

### Beyond Leadership Fall 2018

Beyond Leadership overviews the 10 Essentials of Servant Leadership. Servant Leadership is not about the number of non profit organizations served by an individual, or the number of hours spent attending board meetings or community events. That is community service, and it is very important. Servant Leadership, however, is about one person making an investment in the growth and development of another person; it's one person putting another's needs before their own. It happens at home, at work, and in the community, and it is very important. There is a huge difference between the two.

- Learn the 10 Essentials of Servant Leadership
- Enjoy an Interactive, multi-media format
- Action items can be immediately applied in any corporate, educational, or community based setting.
- Registration includes a continental breakfast and lunch; a complete binder of Leadership Harrisburg Area's original materials; other resources; and a copy of Robert Greenleaf's essay The Servant as Leader.
- Receive guidelines on establishing a servant leadership culture in your organization.
- Plus, a certificate of completion!

## Dixon University Center Student/Faculty Spotlight

### Indiana University (IUP) PhD in Administration and Leadership Graduate Coaches Others to Career Success

In May of this year, Tonya Miller, PT, DPT, PhD graduated from the Indiana University (IUP) the Administration and Leadership Studies, PhD program offered at Dixon University Center. Throughout her twenty-five year career as a leader in healthcare, Tonya experienced firsthand the value of coaching and mentorship. As a young healthcare leader, Tonya gained much of her knowledge by making mistakes, seeking out

mentorship and consuming as much leadership material as possible. As Tonya was promoted to an executive leadership position, she had the opportunity to work with a leadership coach. It was through this experience that Tonya gained a deep understanding of the value of coaching. This experience made Tonya realize how much she would have benefited from coaching early in her career. This realization spurred her passion to be there for other emerging leaders. Tonya promised herself that she would develop a reasonably priced coaching program that focused on developing strong leadership skills in managers at levels of development. In October 2017, Tonya kept her promise and TYM Coaching LLC was born.

TYM Coaching LLC brings together practical day to day operational knowledge with the understanding of core leadership competencies necessary for successful leadership in today's business. In Tonya's 4D Core Leadership Strengthening Program she focuses on developing a strong professional and leadership core consisting of

integrity, accountability and self-awareness. Tonya accomplishes this through evidence based behavioral and motivational assessments with detailed individualized development plans for each coaching client.

According to Tonya "the last year has been filled with so many rewarding moments. Seeing clients gain valuable skills and have those "ah-ha" moments when skills come together for the first time has been exciting and fulfilling. These moments solidified my commitment to being there for emerging leaders. I am so thankful that I kept my promise and started TYM Coaching, and I look forward to helping many more clients gain the necessary skills for effective leadership."

Note: TYM Coaching offers one on one coaching, small team dynamic coaching, and small business strategic planning. Tonya can be reached at: [tonya@tymcoaching.com](mailto:tonya@tymcoaching.com); [www.tymcoaching.com](http://www.tymcoaching.com) or by phone at 717-805-7969.
